

CUSTOMIZED SOLUTIONS

ELEVATE YOUR OPERATIONS WITH CGS WHERE INNOVATION MEETS EXCELLENCE

As an industry leader, CGS offers tailored engineering solutions for challenging mobility applications across many industries. Our success is rooted in exceeding customer expectations through engineering excellence by delivering intelligently designed solutions coupled with unparalleled product quality across diverse industries.

Investments in Virtual Reality and 3D modeling have elevated the customer experience, ensuring optimal designs that meet customer requirements. At CGS, our essence lies in understanding and exceeding customer expectations. Embark on a journey with us where innovation knows no bounds, and excellence is the ultimate destination.

Utility vehicle

TELECOM

In a world where technology often overshadows the human touch, CGS remains committed to fostering connections that transcend the digital realm. As a pioneer in GSM technology, we infuse not just cutting-edge technology and merely about providing telecommunication shelters but a piece of our engineering passion for human connection, emotions, and stories that resonate with every heartbeat of our clients.

Mobile switch gear container on a trailer

Mobile Electrical Center

Electrical Enclosure

Stationary pre-fabricated electrical enclosure

POWER DISTRIBUTION

Mobile Electrical Centers (MEC); customizing semi-trailer chassis with insulated enclosures for project-specific power solutions. Maintenance-free and robust, MECs integrate various essential components. The Prefabricated Electrical Center features a weatherproof, maintenance free design with insulated walls, galvanized floor, and versatile components such as switch gears, breakers, and AC/DC panels.
